Salmon Science Coordinator

Dear Dr. Stein:

Enclosed please find Bonneville Power Administration's review and comment on the five draft "White Papers" recently released by NOAA's Northwest Center for Fisheries Science. We hope these reviews will be of assistance in revising the White Papers, and will contribute to upcoming discussions among interested parties in the remand of the 2000 FCRPS Biological Opinion. We believe that regional decision making and collaboration can benefit from a knowledge base shared by all the interested parties.

Please feel free to contact me at (206) 220-6768 or Sarah McNary at (503) 230-5135 if you have questions or would like any additional information.

Sincerely,

F. Lorraine Bodi
